Fax: (306) 452-3518

### **IMPORTANT NOTICE TO CHANGES REGARDING EMAIL NOTIFICATIONS**

The R.M. of Antler has implemented a new Emergency Notification System Called H2Notify. This system will be the new and improved way for the R.M. to get much needed important information out regarding Road Bans, Road Closures, Dust Control and Municipal Hail just to name a few items. This will also be an important tool for the Special Service Area known as Antler regarding Water, Sewer and Garbage. Most importantly, this will be key in the event of a **EMERGENCY.**

The previous system of emails has been causing issues due to the amount of people on the email notification list. Alternatively, we were wasting precious time contacting people via telephone.

This new method will still be able to send an email, and a text message so no important information will be lost.

If you choose, you can even have a phone call as well.

This is your time to sign up. Soon, this will be the only tool the R.M. will utilize to send out the important information.

As always, if you are having troubles and need assistance, contact the R.M. office and we will gladly assist you.

#### **How to use the QR Code:**

On your cellular device go to the camera as though you're taking a picture, point the camera to the QR code, a small yellow pop up that says "core.windows..." should appear (you may have to move your camera closer or further away from the QR code image for the pop up to appear), press the yellow pop up and it will redirect you to the registration page for H2Notify. Enter the required information and press **register!** You will now receive important updates from the R.M. of Antler #61.
